Your partner in hearing health care solutions

## NOISEBAN RANGE

Offering you choice

### Noise-Ban<sup>™</sup> ELITE

**The ultimate solution for optimum protection and communication in noise.**

- Custom-made hearing device for protection against, and communication in noise.
- Our unique ISO 9001 accreditation and SABS-Approved Performance Mark is your guarantee of optimum performance
- Part of the H.A.S.S. Hearing Conservation Programme (H.H.C.P.) that includes implementation/computer-aided fitting/training/monitoring and on-site service by SABS-accredited H.A.S.S. staff, ensuring minimum downtime for workers
- Annual monitoring and ongoing training of users through the H.A.S.S. Hearing Conservation Programme (H.H.C.P.) to ensure the effectiveness of the Noise-Ban Elite in the ears of the user and the H.C.P.

### Noise-Ban<sup>™</sup> MAX

**Maximum Protection**

- Custom-made hearing protection device focusing on maximum attenuation
- Electronic leak-tight test with every fitting ensuring maximum protection against noise induced hearing loss.

### Noise-Ban<sup>™</sup> ECO

**Maximum Value**

- Custom-made hearing protection device focusing on affordability – excellent value for money protection.

**Other products including soft silicone hearing protection, swim plugs, sleeping plugs and communication applications for two-way radios are also available. Please contact us for more information.**

## HEARING CONSERVATION PROGRAMME

Offering you complete peace of mind

**We offer a complete hearing protection Programme that includes:**

- 1 On-site service by SABS-accredited H.A.S.S. staff ensuring minimum downtime for workers.
- 2 An ISO 9001/2000 certified and SABS-approved Noise-Ban custom-made product for optimum hearing protection and communication in high noise areas.
- 3 Monitoring of the fit, comfort and attenuation of the product in-the-ears of each individual user – ensuring effective attenuation and full compliance to international specifications.
- 4 Training of staff in the use and maintenance of the product.
- 5 Computerised database available to clients via the Internet - password protected historical records are easily accessible for control and audit purposes.
- 6 Optional annual monitoring. This service guarantees the sustained effectiveness of the product, ensuring continued adherence to international standards – a vital component of any responsible hearing conservation programme.

## CUSTOM NOISE CONTROL

**The cost-effective solution for clients employing large workforces**

For **less than R1 per day, per worker**, you can implement the H.A.S.S. Hearing Conservation Programme and protect your workers from Noise Induced Hearing Loss, cost-effectively.

**Please contact us for more details.**

The H.A.S.S. Group has been at the forefront of hearing health care since 1975. Represented throughout sub-Saharan Africa, we have been responsible for the setting of world-class professional and manufacturing standards for over thirty years.

## H.A.S.S. Industrial can lay claim to the following firsts

**1992**

We pioneered the manufacture of custom-made hearing protection devices, according to international standards, in Africa.

We developed the first Hearing Conservation Programme (H.C.P.) to assist companies in combating noise-induced hearing loss in the workplace.

**1993**

We were the first to introduced effective control measures for the testing of a leak-tight fit to ensure adequate attenuation.

**1998**

The H.A.S.S. Group pioneered the development of Ear Institutes situated throughout South Africa. Ear Institutes are diagnostic centres specialising in hearing disorders and hearing loss and offer comprehensive services to industry – including specialised diagnostic assessment of hearing loss (ABR, ASSR and ENG testing).

**1999**

We were the first company to be awarded the SABS Mark of Approved Performance Certificate.

**2005**

We were the first company to develop a data management system for a Hearing Conservation Programme that includes the control of custom-made hearing protection devices, accessible via the Internet.

**2007**

We were the first company to be awarded the ISO 9001/2000 Certificate for the design, manufacture, service and distribution of Hearing Health Care Products for: Custom-made Hearing Protection, Communication Systems and Hearing Conservation Programmes.

For more information, please contact us on 012 333 3131. We are represented throughout South Africa.
